IV. FACTUAL ALLEGATIONS

A. Facts Common to Both Parties

16. Defendant's original group of Safety Security Administrators ("SSA") consisted of 74 employees and approximately 75% of the employees were people of color.

17. In or around December 2025, Defendant's Assistant Superintendent, Matt Anderson ("Anderson"), and Defendant's Role Group Manager, B.J. Ritter ("Ritter"), informed the SSA group that they were performing well, with a 98.6% approval rating from principals and assistant principals.

18. On or about January 15, 2026, Defendant held a meeting and announced that the SSA group would be reduced from 74 to 37 positions, with employees being selected based on

seniority and hire date. Lott was ranked 12th in seniority, and Richardson ranked 19th, which was safely within the retained group.

19. In or around February 2026, Defendant canceled the regularly scheduled monthly SSA meeting and instead directed staff to attend a Zoom call. Defendant announced that the number of positions would increase from 37 to 55, the job title would change from "Safety Security Administrator" to "Risk Assessment Coordinator" and the job duties would remain the same. Defendant further stated that the seniority would no longer be considered in the selection process, that the positions would be open to all applicants, and that the positions would be reassigned from reporting within the school to reporting under Defendant's Police Department. Defendant also announced a reduction in salary from $90,000 to $74,000.

20. The selection process included Defendant's Police Department officers visiting individual school buildings and asking principals' personal preferences as to which SSAs they would retain, even though the positions were being moved out of the school supervision and into the Police Department.

21. Defendant has also eliminated its Racial Equity, Culture, and Climate Department, which previously provided Diversity, Equity, and Inclusion training to district staff.

B. Facts Relating to Melissa Lott

22. Lott hereby incorporates paragraphs one (1) to twenty-one (21) of the Complaint as if the same were set forth at length herein.

23. Lott, who is a Black woman, began working for Defendant on or about February 27, 2012, as a Family Resource Youth Services Center Coordinator at The Academy at Shawnee. On or about August 22, 2022, Lott was promoted to the position of Safety Security Administrator ("SSA") at Federick Law Olmsted Academy North.

24. At all relevant times, Lott met or exceeded Defendant's legitimate performance expectations.

25. Following Defendant's January 15, 2026, announcement regarding the reduction of the SSA roles, Lott created and circulated a flyer on Facebook and emailed all of Defendant's board members detailing the role and impact of the restructuring on school safety. Lott's email was forwarded by a board member to Defendant's Chief of the Police Department, who ultimately made hiring decisions for the restructured positions.

26. Lott organized a campaign urging Defendant to retain SSAs in school buildings rather than move them to the Police Department and communicated with board members and district shareholders.

27. Lott served as a role group liaison and prepared two concession letters given to the JCPS Administration Union. The matters addressed in those letters were later discussed with and/or forwarded to the Superintendent and/or the Superintendent Advisory Board.

28. At Lott's school, an officer asked the principal to choose between Lott and Martin Baker ("Baker"), her male counterpart. The principal selected Baker, whose hire date was on or about August 8, 2022, despite the fact that he had more than ten years less seniority than Lott and ranked in the bottom 33 percent of the original 74 SSAs in terms of seniority.

29. Defendant also distributed a Google Form to principals to collect selection preferences. The form has since been closed and principals have stated they do not recall the email.

30. On or about April 3, 2026, Defendant announced the 55 individuals selected for the Risk Assessment Coordinator positions. Lott was not selected despite having served fourteen

years in the district, having seniority ranking 12th out of 74 employees, consistent positive performance and no disciplinary history.

31. The candidates selected for the position included three individuals, none of whom had prior SSA experience or possessed the required certifications and training for the SSA role. All had less relevant experience than Lott.

32. Defendant canceled all remaining monthly SSA meetings for the school year and neither management nor Human Resources provided any explanation as to why Lott was not selected.

33. Lott was placed on FMLA leave for the remainder of the school year due to the psychological impact of not being selected.

34. Following Lott's separation from employment, she applied for three additional positions with Defendant, including two Risk Assessment Coordinator positions. Lott was not offered any of these positions.

C. Facts Relating to Emery Richardson

35. Richardson hereby incorporates paragraphs one (1) through thirty-four (34) of the Complaint as if the same were set forth at length herein.

In 2017, Plaintiff assumed the position of In School Security Monitor at Byck Elementary School and subsequently served the same role at Carrithers Middle School beginning in 2020. In or around June 2022, Richardson was promoted to Safety Security Administrator ("SSA") at Thomas Jefferson Middle School.

37. At all relevant times, Richardson met or exceeded Defendant's legitimate performance expectations.

38. Following Defendant's January 15, 2026, announcement regarding the reduction of the SSA roles, Richardson was contacted by Wave 3 News and gave an interview that was aired on or about February 16, 2025, regarding the budget cuts and its impact.

39. Richardson organized a campaign urging Defendant to retain SSAs in school buildings rather than move them to the Police Department and communicated with board members and district shareholders.

40. At Richardson's school, an officer asked the principal to choose between him and CT Palmer ("Palmer"), his White counterpart. Although Richardson was ranked 19th in seniority and his counterpart ranked 28th, the principal expressed a preference to retain Palmer.

41. Defendant also distributed a Google Form to principals to collect selection preferences. The form has since been closed and principals have stated they do not recall the email.

42. On or about April 2, 2026, Defendant announced the 55 individuals selected for the Risk Assessment Coordinator positions. Richardson was not selected despite having served twelve years in the district at that time, having seniority ranking of 19th out of 74 employees, and no disciplinary history. Palmer, Richardson's White counterpart, was retained.

43. The candidates selected for the position included three individuals, none of whom had prior SSA experience or possessed the required certifications and training for the SSA role. All had less relevant experience than Richardson.
